

ARDEX SE SILICONE

Coloured Silicone for Sanitary Installations

ARDEX SE is an acetic cure sealant for applications such as movement joints (between tiles), internal corners (tiled wall and floor) and connecting joints between tiled surface and benchtops, bath edges, cupboards, splashbacks.

LOW VOC 

JOINT WIDTH

- Max width 30mm, depth 15mm

SUITABILITY

- ARDEX SE bonds well to ceramic tiles, glass, enamel, anodized aluminium, granite, porcelain, laminated bench tops and sanitary acrylics. (Not recommended for other natural stones, e.g. marble, travertine and limestones. May cause discoloration to brass and copper).

LOCATION

- Internal, External
Use ARDEX ST as bond breaker when using with ARDEX waterproof membranes (Not suitable for continuous immersion use e.g. swimming pools)

SURFACES

- Floors, Walls
